# Trackman®

We're covering new ground with our after-market line-up for the **Case IH Quadtrac®** tractors:

From the introduction of the Case IH Quadtrac, we have advanced positive drive tracks incorporating our racing-tested Gatorback® positive drive technology, our in-depth rubber compounding knowledge, along with our decades-long track experience to build industry first track durability.

## Standard Agricultural Tracks:

- Fully-molded Tread Lugs, Drive Lugs and Carcass for increased Tear-off resistance
- Patented reinforcement construction delivering improved tracking and added strength
- State-of-the-art Rubber Compounding Technology
- Designed for the demands of a Positive Drive System

## ARMORLUG® Technology:

- ARMORLUG state-of-the-art reinforcement material is incorporated in the ARMORLUG® SD and ARMORLUG® ED track construction to help you deal with the severe demands you face every day
  - Field tested with 23% track service life improvement versus standard production tracks
  - ARMORLUG Technology takes Positive Drive applications to the next level

The Quadtrac® undercarriage relies solely on Goodyear Engineered Products for these critical rubber components: rubber mounts, roller wheels, bump stops and idler wheels.
